Paintable Biodegradable Mold Release

Why was PAINTABLE BIODEGRADABLE MOLD RELEASE developed?

DAC's Paintable Biodegradable Mold Release was developed to give you a mold release that can be rinsed off parts easily by using light detergent, which will save you thousands of dollars in unnecessary solvent purchasing.

DESCRIPTION:

DAC's Paintable Biodegradable Mold Release is completely compatible with most secondary operations. The amount of release normally transferred from mold to part will not cause problems for most painting, hot stamping or metallizing operations. This CFC-free, non-toxic, odorless mold release performs on both hot and cold molds.

PERFORMANCE CHARACTERISTICS:

- Use where parts must be painted, hot-stamped & metallized
- Non-toxic and biodegradable
- Safe on all parts
- Fully paintable
- Easy to remove
- Fogging for even coating

REMOVAL SPECIFICATIONS:

If build-up occurs, flush with DAC-103 Universal All Purpose Degreaser.

NPCA Hazardous Materials ID System

Health	1
